WAR! WAR!! WAR!!

Between the Physicians and the Matchless Sanative

1 WHY are some of the American Physicians making such strong efforts to PUT DOWN the Matchless Sanative? Let the public answer

2 Why did the German Physicians at first OPPOSE Dr Goelicke and afterwards acknowledge him to be a GREAT BENEFACTOR to mankind? Let the public answer

3 What medicine HAS cured, IS curing and WILL cure obstinate diseases which physicians CANNOT cure? Let Facts answer

4 What kind of apple trees are most STONED and CLUBBED? Let Farmers answer

5 Why are physicians constantly PELTING the Sanative and saying nothing against OTHER medicines? Let their Day Book answer

6 How did Dr Adams attempt to convince Mr Webster who had bought a vial of the Sanative for the use of his family that it was a DANGEROUS medicine? Let one of the daily papers answer

The recent experiment which Dr Adams tried with the Matchless Sanative in giving a large dose of it to a dog *without killing him* clearly proves that the Sanative was made to CURE and not to KILL!

7 Why do some physicians SECRETLY buy the Sanative and MIX it with their own medicines which they use in their daily practice Answer that they may have the CREDIT of the CURES

8 Why is a sick young man belonging to one of the first families in Boston now using the Sanative without letting the attending physician KNOW it? The recovery of his HEALTH will shortly answer

9 Why are physicians trying to persuade agents to give up SELLING the Sanative? Answer they know if it should be for sale in every town in America they would shortly be obliged to resort to SOME OTHER BUSINESS or else STARVE

10 Why will the Matchless Sanative soon be the ONLY medicine used throughout the world? Let PHYSICIANS answer

The above precious medicine (the original discovery of Dr LOUIS O GOELICKE of Germany) is for sale wholesale and retail in Boston by D S ROWLAND, General American Agent for the discoverer

Also for sale by EBEN R TRASK Hampden and EDW H BURR Brewer, RUFUS GILMORE Newburgh, and in most of the towns in America

☞ In places where there are no Agent, the Postmaster or any storekeeper who shall write to the General Agent at Boston will immediately be appointed an Agent.

☞ Agents are requested to have the above inserted 12 or 10 times, (in full) in the papers published in their towns feb27

BANGOR WHIG.

FRIDAY, JULY 13, 1838.

WHIG NOMINATION.

FOR GOVERNOR,

EDWARD KENT.

[Reported for the Whig & Courier.]

TRIAL OF NANCY H. KIFF,

Continued.

Mrs. Rachel Lewis was called again, and stated that Mrs K got tanzy at their house the night she waked her up saw it again next day—didn't appear to be used.

Stephen D. Pond. I received a few days after the death of Capt K a box from Doctor Mason, containing what purported to be the contents of Capt K's stomach, liquids and powders. The first night I went to Dixmont. I kept them under lock and key. I saw Prof. Cleaveland, and he declined examining them. I locked them up in my travelling bag and and kept it there till I delivered them to Doct. Gay, at Boston, about the first of August last.

Cross Examined. I took the box in my hand at the hotel in Brunswick, and carried it to Prof. Cleaveland he declined examining the contents. He did not have possession of the box.

Doct Martin Gay, of Boston, testified that he received the box spoken of by Mr Pond, from him. It contained a number of articles, liquids and solids, numbered. Doct Gay then explained the properties of arsenic and the mode of discovering its presence—the different processes of discovering its existence. He stated that he found arsenic in numbers one, five and six. He described the symptoms under different circumstances the appearances of the stomach. The body was exhumed. I examined the stomach in the possession of Dr Mason found an ulcerated spot. It is the effect of arsenic to ulcerate after a lapse of time as the result of inflamation. He explained the appearances of ulcers in such circumstances. Corrosions are sometimes found in the stomach being produced by the gastric juice after death. I could not mistake this for an ulcer occasioned by arsenic. Ulcers are also sometimes found in other cases. The stomach does not present, in these cases, the same appearance as in poison from arsenic.

Cross Examined. No arsenic was found in that portion of the stomach sent to the. If that was a fair sample, there was none in the stomach I could discern. No arsenic in the contents, though some of the tests indicated the presence of arsenic, but nothing that I could rely upon. The appearance of the stomach would lead me to suspect that there had been arsenic in the stomach. Arsenic might be taken into the stomach and thrown up, and could not be found in the stomach. I examined the body on the 23d of June last, about two weeks since, and took out some of the large intestines. Made experiments and detected no arsenic. A person who had taken arsenic in small quantities, might rest without anodynes. I have assisted in dissections of Asiatic Cholera. Various appearances were exhibited could not account for the death the occasions of death were unequal Redness was sometimes found the brain affected. Sufficient was not ascertained to determine the cause of death. Vegetables would be an exciting cause of Asiatic Cholera. Spots, where arsenic had poisoned, would not turn dark. The finding of arsenic in the stomach by experiments is surer evidence than any other indications.

The symptoms of poison by arsenic, where the trouble is particularly in the stomach, are a burning pain in the stomach vomiting from five to thirty minutes would continue till death, more or less, with the burning pain. These are the most marked symptoms. Sometimes a person will die very soon, without pain in the stomach and bowels, but it is very rare. The patient might be killed before the stomach can get into trouble there are not more than ten such cases on record In such cases, the pulsation of the heart stop, and it cannot be electrified. Sometimes there is trouble in the brain, resembling apoplexy.

[Our Reporter regrets that his minutes of Dr Gay's testimony are so imperfect as not to present the very interesting and scientific explanations made by him to the Jury, as also the various symptoms of poison under different circumstances. The attention of every one was strongly enlisted, while he was engaged in explaining the different arsenic tests and the mode of ascertaining its presence, and this circumstance must be an excuse for omitting those very interesting portions of his testimony.]

Dr. Thomas C. Barker, of Dexter, testified that he would expect to find in a person poisoned by arsenic, an oppressive feeling in the stomach a burning feeling and vomiting, sinking or faintness. The patient might complain of intense heat afterwards coldness of extremities and thirst. It is my opinion that arsenic, in solution, perfectly dissolved, could not be discovered in the stomach so say the writers. If taken with food, it might adhere to the coats of the stomach. I recently examined such a case It is an established point, in my opinion, that arsenic, taken in solution, could not be detected after death, and particularly after vomiting. Two or three spoonsfulls might produce death.

Cross Examined. In cases of common cholera, there is no inflamation of the stomach. In Asiatic cholera, it is said to be the consequence. In this there is usually vomiting but no burning of the stomach as in cases of arsenic. Sometimes there is some thirst, but it is not a prominent symptom. Common cholera would be induced by eating vegetables. The case of Mrs. Parkman, in Somerset County, was the one I alluded to. The examination of the stomach and bowels accompanied by other symptoms of arsenic, would not, in certainty, be conclusive of the presence of arsenic, though highly probable. I would not say, positively. If arsenic could be detected, it could be pronounced upon with perfect certainty. In the Parkman case, a tea spoonful might be taken out of the stomach.

DEFENCE.

The defence was opened by J. W. Hathaway, Esq. He stated that he should rely upon the absence of proof on the part of the Government tending to make out the case. He alluded to the threats testified to by the witnesses from St. George as not being connected with the crime charged. The Jury, he said, could not rely on the symptoms as stated by the physicians who had been called, for they had given a list of them so numerous and manifold that they are sufficient to indicate all the diseases to which we are liable. It is contended by the Government that there was arsenic in the house with her knowledge. Was it so? Suppose it was, what then? You must have evidence that he administered it, and that his death was occasioned by it. The Jury must have [illegible] proof [illegible] death by the prisoner's hand with malice aforethought. He also [illegible] the imprudence of Capt. K. before his removal, and to the state of the weather. The Government were picking up all little circumstances to make up the case, and he here adverted to the testimony of Lucy Page, enquired how she could know they were the same cups. He appealed to the Jury if there was any weight in the fact that whatever the prisoner administered to the deceased occasioned vomiting, and that what others gave did not produce the same effect. With regard to the preparation of the brandy and water going to the cups in the presence of Dr. Mason the whole story is altogether improbable. There was no suspicion of poison then, but they are very particular now. If such were the fact, it is very singular that it should be done, and should you not rather suppose the contrary? The deceased attributed his illness to the vegetables, and others of the family were sick, probably from the same cause. The predictions of Mrs K have been much relied upon by the Government is that a cause for hanging? You have been told that she is a coarse, uncultivated woman, and, gentlemen, there is no doubt of that fact. It is said she was careful to remove the bowl and would you not have thought it strange if she had not done it? The room was small the atmosphere within it was impure she ought to have done as she did. It is said she entirely neglected her husband he does not say so, but the contrary. They say, too, that she took care of Stephen Peabody that she had consulted fortune tellers. What of that she should have taken care of him was this evidence of guilt? With regard to the fortune teller's story; if she believed it, why should she hasten his death? He is dead there is no proof who did the deed God knows how I don't know you don't know. It is very common for people to take sides in such cases, and in such cases of excitement, witnesses are illy competent to testify. He here alluded to the Salem Witchcraft. The testimony of Mrs Emerson and Mrs Lewis, he continued, was not to be relied on under the circumstances of the case. Their testimony must have grown with the lapse of time. He alluded to what he considered inconsistencies in their testimony, and asked the Jury if they could give credence to it. All the rest is dependent on them all is traced back to them. The Councel for the Prisoner proposed to offer evidence that the Doctors introduced by the Government were mistaken that the deceased had been out of health for some time, and that it was the cause of his death, unless accelerated by the Doctor, who does not seem to have been acceptable to the prisoner. They first called

Doct. Jotham Moulton, who testified that he was passing Mr. Ames' house in Bucksport, and heard that they were examining Capt K's body. Saw the stomach taken out by Dr Mason the intestines were of a pink color and distended The stomach was taken away by Doct Mason and examined at his office. It had red patches on it the contents of the stomach were such as is thrown up in the last stages of fever, or bilious cholic. I saw no tests did not know Capt K when living. Often seen cases of inflamation of the bowels sometimes of the stomach. Have been in practice forty-three years. I saw nothing remarkable in the appearance of the bowels looked like inflamation. Never saw but one case of poison and that from *nux vomica* the patient lived. When I was young, there was a prejudice against dissections and latterly I have had no inclination to examine bodies. There was nothing extraordinary in the appearance of the stomach should have thought nothing of it, if there had been no suspicions excited. Vomiting is usually attendant on inflamations there is not always a diarhœa in cases of inflamation of the stomach. The symptoms of inflammation of the stomach would be the same from whatever cause induced. There is no inflamation in cases of common cholera in cases of dyspepsia, there is sometimes inflamation. It is extraordinary that the man should not have died sooner, if he had taken arsenic. I am not acquanted with it—would not dare to give over one fourth of a grain.

Cross Examined. Poison operates probably on the heart. Death sometimes results from unknown causes. Never have seen a case of poison by arsenic poison might occasion the death. No disease ends in death without affecting the heart. Repeated small doses of poison might occasion death, without finding any in the stomach. In cases of solution, it might be thrown up. I have seen one case of inflamation of the bowels don't recollect that the stomach was inflamed.

Rufus E. Hill of Bucksport, stated that there had been a good deal of excitement—there was no mobs or threats of mobs. Heard Dr Mason relate the story over—he said he thought that the contents of the stomach contained arsenic—he said he found arsenic in the cups, but could not swear to it. Doct Mason said he saw a black spot on the stomach Capt K had no connexions in Bucksport.

Doctor John Burnham, of Orland, testified that he had been forty years in practice—long enough to know that he did n't know much.—Said he was acquainted in Bucksport heard what the symptoms were in Capt K's case at different times. Arsenic ought not to be given in any case if at all, in small quantities. The symptoms of poison by arsenic are tremors, sweating, hectics, burning pain in the stomach and œsophagus. Its nature is corrosive, occasions livid spots, the nails turn blue and fall off. Think all the effects in this case might have been produced by cholera, or other causes than arsenic. Unripe fruit tends to produce cholera. The use of oil is the best antidote—soap is the remedy an alkali Brandy would not agree well with arsenic a person could not sleep soundly nights after taking arsenic, provided enough was given to produce death. One grain would kill a person. I am ignorant of chemistry—enough for me to administer physic, without manufacturing it leave that to others.

Cross Examined. Never saw a person opened who had been poisoned by arsenic. Arsenic corrodes inflames and produces livid matter. The Edinburgh Medical and Physical Dictionary says it corrodes. I can't tell exactly how it operates on the system. It does not tend to preserve the stomach after death, but putrefaction ensues. Arsenic goes into the system, if taken into a wound. It produces inflammation of the stomach and bowels acts on the system generally, and produces death by convulsions, which will tear the life out of any one. Can't tell why arsenic poisons. Common cholera would have produced powerful vomiting the same symptoms as those of which Capt K died. There may be paralysis from cholera—the eyesight affected. Recollect cases forty years ago. The symptoms of cholera morbus are a pressure at the stomach, attended by powerful vomiting—purging always accompanies the cholera.

[To be continued.]

THAT'S A FACT.—The editors of the old Bangor Post say that "not a solitary Democrat has been appointed to office under Kent's administration." They probably mean Loco-focos, and if so, they had better hold their tongues, lest they should be suspected of telling the truth.

☞ The Ex-Clerk toasts the "Yeomanry of the State," he says "they [illegible] ble." We hope this [illegible]

PATRIOTIC.

A good Whig, the other day, said to a Loco Foco, "why don't you go to your Loco Foco friends to aid you in procuring some seed wheat to sow, they are always liberal, you say?" "I'll tell you what, my good friend, I can't work for them any longer. If you were to work for a man six months, and you found you got no pay, and was sure you would not, would you work longer." "No," said he. "Well that's the way I have been served for six years, and I wont go it any longer." —O. P. Q.

☞ A correspondent of the Boston Post says that John Fairfield went into Congress distinguished as a statesman and legislator! This is something new, indeed, for we never heard of his being a member of any legislative assembly prior to his election to his present station. We did hear, however, that he made several attempts to get into the State Legislature from his own town, and never succeeded. A statesman and legislator, forsooth! This equals Ex-Marshal Smith's Convention speech, wherein he said that Mr. Fairfield was admitted to the Bar with DISTINGUISHED honors. We suppose this means that he paid the initiation fees, and procured certificates shewing that he had complied with the requisitions of the Statute in relation to literary, scientific and legal pursuits. Oh! Crickee!

☞ The Loco foco organ in this city flares up "pretty considerable large" on their party glorifications on the 4th. At Hermon, it says, "one mind and one spirit, (i. e.) the spirit of '38, pervaded the whole assembly." We don't know whether the *spirit* was of the manufacture of '38, or of a longer standing whether it "pervaded the whole assembly" or not. But this [illegible] say that if it did pervade it, as it did one individual that came under our observation, "the whole assembly" must have looked *decidedly democratic*

"PLENTY LARGE."—The following toast is said to have been given at the late Loco-foco celebration in Dover, by Samuel Palmer. "The ladies of Piscataquis May they never suffer the allurements of Whig declamation to deter them from sacrificing at the altar of democracy." This was undoubtedly followed by music on the *Scotch fiddle*, say five dollars worth!

The following was given at the same place: "By a Guest. Whig rejoicings Wonder if they don't want some niggers to help them *grin.*"

There will be no need of this, as it is expected the Locos will give a second edition of their *ghastly grins* of last year.

[From the Bangor Democrat, alias the old Bangor Post.]

THE LAST JOKE enlarged and improved. The Ex-County Attorney calls Mr. Fairfield a *statesman!*

Loco foco principles. Five loaves and two fishes possibly, *an old pair of breeches!*

Loco foco tactics. Proscription and unqualified abuse of all Whigs and every measure for the people's good deception in all cases, bribery and corruption when possible.

Loco Foco patriotism. The ruination of the country, and the infliction of sufferings upon the people to obtain political power and feather their own nests swapping off Maine territory for Michigan bogs.

Loco Foco veracity. A thing unheard of, except by mere accident.

Loco Foco honor. Oh, ye Gods and little fishes "Oh no, we'll never mention it."

☞ The Loco-foco ambassador from Cumberland County, it is confidently said, could not "come it" over the Conservatives. Just as we intimated in yesterday's paper.

The last hope of Loco Focoism has perished. The Sub-Treasury system has fallen, forever prostrate. The power and patronage, the threats and blandishments of the Executive, the coaxing & scolding, the drilling and dragooning of its chief Captains, have proved alike ineffectual. The indignant voice of an injured and incensed nation has been heard in the high places, and the will of the people has for once prevailed over the will of the President.

The Sub-Treasury system was the darling measure of the administration, and to secure for it the Legislative sanction, no efforts have been spared. All the means and appliances within the control of the Executive, have been put in requisition. In this trying crisis, when those who had supported his predecessor, were turning their backs upon him in disappointment and disgust, when State after State was falling into the ranks of the opposition, the President regarded the Sub-Treasury as his tower of strength, his fortress of security. No wonder then that they should be overwhelmed with mortification and despair, when all their efforts have proved abortive and the last glimmering of hope has been withdrawn from them. The avenger of blood is in quick pursuit, and no city of refuge opens its gates to receive them. Miserable men! The powers entrusted to them they have abused, their opportunities for good they have perverted, and the gulph of political infamy yawns before them. [Hallowell Chronicle.

The Age says "we can run down two federal candidates as easily as we could Gov. Kent." No doubt of that, for you have already found that you could not run down *Kent* alone. But perhaps the Age means by two federal candidates, Parks and Fairfield. They have *run down Parks*, and Fairfield is on the *slide.*

The same paper calls the conservatives "the tail end of the federal party." If that is the case, we think they will find that the "federal party" will wag its "tail" to their sorrow this fall, and we advise the editor of the Age, as he is a slender man, "to fend off."

WASHINGTON, July 7, 1838.

HOUSE OF REPRESENATIVES.

U. S. BANK. The house were engaged from half past three yesterday till midnight, in discussing the Bill to prevent, and to make a penitentiary offence, the issue of the bills, notes, and other securities of corporations, created by acts of Congress, which have expired: a round-about way of spelling the Bank of the United States of Pennsylvania. This was a bill from the Senate, and the House, after a spirited debate, followed suit in passing it, by a small majority, in a very thin house. It is only intended as electioneering and slangwhanging matter, being, as a practical law, of no more importance than the sheet of paper I am writing on.

TEXAS. *Mr. Adams* spoke during the morning hour in continuation of his remarks against the annexation of Texas. He had not finished, when the hour elapsed.

Dromgoole tried to procure a suspension of the rules, so as to be enabled to have the subject carried through to its completion, and to have an opportunity of replying: but the house refused the motion.

REPORTS. There ensued a general jail delivery of Reports in the hands of Committees. This was done by general consent; and occupied a large proportion of the time before the recess.

THE MEXICAN DOCUMENTS. The question of printing the papers accompanying the President's Message as to our Mexican relations came up and on *Robertson's* motion, a committee of three were appointed to select the proper papers to be printed, the whole mass being, in the opinion of the house, too voluminous. Messrs. *Robertson, Everett* and *Crary* are the Committee to do this.

THE CALENDAR. Bills that have passed the Senate, occupied the rest of the time till the recess, and will do so after the recess, most probably. I shall make up my account of proceedings till that hour, and then, if possible, will give what occurs after recess, below.

UNITED STATES SENATE.

THE HARBOR BILL, which had passed the house, was last night so amended as to leave it discretionary with the President on what works to spend the money, or whether to expend any of it: placing the whole execution of the law in the hands of the Executive. This amendment called out all the talent of the Senate, and a splendid debate was the consequence. The amendment was carried by a meagre majority in a thin Senate. This being done, the bill was lost, our friends going against it of course. Yeas 18 Nays 18.

To-day, *Mr Merrick* moved to reconsider it, which motion prevailed: and the result was the recommitment of the bill with instructions to bring it in, with a proviso that only fifty per cent. should be expended this year, and fifty per cent the next year, of all the sums over $12,000. The vote on this proposition was as follows.

YEAS. Allen, Bayard, Buchanan, Henry Clay, Clayton, Crittenden, Davis, Fulton, Hubbard, King, Linn, Lyon, Merrick, Mouton, Mills, Nowell, Robbins, Ruggles, Sevier, Smith, Smith, Southard, Tallmadge, Tipton, Webster, Williams, Wright, Young 38.

NAYS Brown, Clement Clay, Cuthbert, Nicholas, Pierce, Preston, Rives, Roane, Strange, Trotter, Wall, White. 12.

Quite a variety of business was then transacted. Bills from the House, Reports, Memorials, &c &c., and then the Senate, at half past two, took a recess until half past 4. Immediately after the recess, the Harbor bill will come back, according to instructions.

AFTER THE RECESS.

HOUSE OF REPRESENTATIVES.

DISTRICT SMALL NOTES. An act from the Senate restricting the issue and circulation of small notes in this District, after the first of April next, was taken up, and after some debate was passed.

SALE OF UNITED STATES BONDS The Senate bill proposing to dispose of this stock came up for action, on motion of *Cambreleng.* It excited a little skirmishing, the pith and point of which were the conviction of *Cam*, out of his own mouth, for having now come out the advocate of a measure which at the extra session he had reprobated as emanating from the mint of *Nicholas Biddle*, and the United States Bank. *Cam's* only attempt at escape was to plead that this bill provides that this stock *may* be sold *abroad. Bell, Wise, Underwood, &c. &c.* gave it to this strapping financier most capitally. The bill passed.

The rest of the time was spent till late at night in the discussion of general business in Senate and House. In the Senate the Harbor Bill passed with a restriction against expending more than 50 per cent of the appropriation, (over $12,000) for the current year.

The Fortification Bill was taken up and carried through in the same way.

I will send you a sketch of the remaining proceedings of the night, by the next mail.

THE CUMBERLAND HOUSE RE-OPENED.

JOHN BARKER, (late of the Mansion House Augusta Me.) has the pleasure of announcing to his numerous friends and the public, that he has opened for the reception of company that spacious, commodious and elegant structure, near the City Hall at the junction of Middle, Federal and Congress streets, known as the CUMBERLAND HOUSE. It has been thoroughly repaired and put in first rate order. The rooms are neatly furnished. Prompt and faithful attendants are engaged and every exertion will be made to contribute to the comfort and enjoyment of boarders and travellers. The subscriber ventures to refer to the established reputation of the MANSION HOUSE, for some time conducted by him, as an earnest of the character which he intends the CUMBERLAND HOUSE shall sustain under his direction. He trusts, in fine, that his endeavors to please will not be lessened by removal, and that the LARDER will still furnish the choicest delicacies of the season, and his CELLAR those rare juices which gladden life.

JOHN BARKER.

N. B. Connected with the Cumberland House is a large and commodious stable, where the best of attention will be given by experienced and faithful ostlers.

DR BRANDRETH'S GENUINE PILLS

Doctor Sangrado's system still —

Lives in the world, to kill, to kill!

THIS system does indeed live still and is pursued by the very men who laugh at Doctor Sangrado as a visionary fool The immaculate Faculty! Let this truth be impressed upon every mind that all pain and weakness proceed from the presence of morbid, stagnant and corrupt humors IN THE BODY by which the circulation of the blood is impeded and that the only sensible method is to remove them from the stomach & bowels, then take

Brandreth's Pills concocted forth
From the pure products of the earth,
They own no after sad alloy,
They often save, but never destroy!

BLEEDING ALWAYS IMPROPER,

"For the life of the flesh is in the blood Leviticus chapter xvii v 11 When the properties of BRANDRETH'S VEGETABLE UNIVERSAL PILLS shall have been appreciated bleeding will no longer be thought of as a remedy for diseases for in violent inflammations, eight or ten of them will take in the course of two or three hours more of the impure humors from the body by the stomach and bowels, than bleeding to the extent of forty ounces could possibly have done and it should be remembered that the Pills remove ONLY those parts from the blood which were the cause of inflammation, whereas bleeding removes the essential parts also How great the prostration of all the corporeal powers after a copious bleeding! On the contrary what agility and strength is felt after a dose of this medicine, the body is indeed lightened of a load! Nothing is equal to ridding the vitiated humors with a vegetable medicine of this kind which 84 years have proved never to do injury but always good Is the pulse too high? A dose of these Pills will bring it down Is it too low? the same means will increase it to a proper standard! Is it tremulous showing nervous excitement? the Pills by soothing the system will allay it

Thousands of the most respectable citizens of the United States will be referred to with pleasure by Dr B who have for many years been in the habit of being bled as often as four times in a year, and whose constitutions in consequence were becoming weaker and weaker but who, since they have made use of these Pills have never lost a drop of their precious blood When any of their old symptoms appeared instead of running to a Doctor and having a vein opened they have swallowed six or eight Pills which soon removed the vitiated humors that were impeding the blood in its circulation Those sensible people simply by the use of these invaluable Pills, are increasing every day the powers both of body and mind which by the practice of bleeding, were both becoming dreadfully impaired

The following cases of cure by the use of Brandreth's Pills alone, are submitted with respect, to the unprejudiced portion of the Boston public

ASTHMA CURED The following extraordinary case of Asthma, which is authenticated by seventeen respectable and well known inhabitants of Greenwich Ct, deserves by all persons a careful perusal The most prejudiced must own that evidence is on the side of these Pills, which, by the cures they are daily making show there is no necessity for any other medicine

This is to certify that Thomas S Brown of Greenwich Ct was taken with a cold, numb feeling on the 13th of June last He began to cough and raise phlegm and in the course of twenty four hours about two quarts of thick white jelly was expectorated Three physicians in Stamford Greenwich and Sawpits pronounced it a nervous humid spasmodic Asthma and after prescribing for some time to no effect the three consulted together, and finally declared that they could do him no good, it would and must result in consumption, and death would ensue, and that in a very short time The pain was excessive in all parts of his body, and the difficulty in breathing was such as almost to cause strangulation He was reduced to a mere skeleton and finally gave himself up to death After being in this miserable state nearly two months he saw an advertisement of Dr Brandreth's Vegetable Universal Pills and immediately sent by Capt J Waring of Greenwich for a box and found relief in the course of a few days, which encouraged him to persevere, and now having taken them for about four months according to the direction, is entirely recovered, and so far as we can judge in consequence of taking the above Pills, which we have also used in our families, and have found them invaluable

[TRUE COPY]

To Dr Benj Brandreth

My dear Sir I write a few lines to inform you that I have been making use of your Vegetable Universal Pills. I have been afflicted with a complaint supposed to be caused by PAINT I was subject to a great coldness through my whole system attended with frequent pain and severe cholics, for the year, I have also been subject to fits, which would seize me in the night and when I have come to myself, I have been as weak as a child I am ready to state the facts more particularly and how the medicine acted upon me, at my residence No 17 Sudbury street, to any one who wishes to inquire

I feel the medicine has been of very great service and that the diseases under which I labored have been by it ENTIRELY REMOVED, for which I shall ever feel grateful to Providence and to you

Believe me to remain
Very respectfully,
JOHN LUMMUS,
Boston 17 Sudbury street

DR KINGLEY'S PILLS.

THE most safe effectual and economical remedy for diseases of the Human Constitution, that has ever been discovered

These Pills are composed entirely of materials extracted from Medical Plants and are warranted not to contain one particle of mercury or any mineral substance Dr Kingley the inventor of this valuable medicine from his knowledge of the human system derived from a long and extensive practice, has arrived to the conclusion, that the great and primary cause of most diseases is a derangement in the functions of the liver, or in other words an increased or diminished secretion of the Bile

So well is this understood that it is common for persons to say when they feel unwell that they are bilious meaning that they have too much bile in the stomach On the other hand when the flow of bile is diminished the process of digestion is imperfectly performed the patient becomes weak and emaciated, because nourishment contained in the food taken into the stomach is not properly extracted and the food is ejected in a crude state Dr Kingley is confident that the famous Hygeian Theory so called that "impurity of the blood is the cause of all diseases" is a great absurdity Every one who reflects upon the subject a moment will perceive that impurity of the blood is a secondary, not a primary complaint the effect and not the cause of the disease When the functions of the liver are deranged, and the flow of bile increased it is often taken up by the absorbent vessels and carried into the circulation, and becomes mingled with the blood as in Jaundice when the patient shows it in his countenance Now this impurity of the blood is caused by an increased flow of the bile and to remedy it you must correct the secretion of the liver and restore it to a healthy state

Dr Kingley has spent much time in experimenting with different vegetable medicines, for diseases of the liver, and now offers his Universal Family Pills as the best most convenient and cheapest medicine that can be prepared for general use, and in offering them to the public, he is actuated more by benevolent than pecuniary motives, as the price of the medicine will show

Dr Kingley flatters himself that his long experimenting with vegetable medicines has enabled him to discover the true and only substitute answering all the purpose of mercurials, without any of their attendant evils One great quality of his family Pills is that they have the alterative principle combined with their cathartic or operative quality, so that they not only cleanse the stomach and bowels by purging but they regulate the liver change the morbid secretions strengthen the digestive organs, purify the blood, invigorate the circulation, and give tone and energy to the nervous system

They are mild and pleasant in their operation, and almost immediate conviction of their utility from the first dose They can be taken with safety by persons of any age and the feeble the infirm the nervous the delicate, are strengthened by their operation, because they clear the system of bad humors quiet nervous irritabilities and restlessness from whatever source, and invariably produce sound sleep.

The Family Pills are an invariable remedy for jaundice, sick and nervous headache dyspepsia costiveness sickness of the stomach heartburn all bilious complaints, fevers of all kinds and if taken at the commencement will invariably check their progress and save the patient from a protracted and dangerous sickness They are invaluable in nervous and hypochondriacal affections loss of appetite and all complaints to which females alone are subject They operate as a mild and speedy purge, and are a safe and certain remedy for worms in children

I might publish a small volume of certificates but consider it unnecessary, as the medicine will recommend itself to all who will make trial of it

JOHN KINGLEY

These Pills are put up in neat boxes of two sizes, the small size contains 25 Pills and the retail price is 25 cents, the large size contains 60 Pills, the price is 50 cents

A VALUABLE REAL ESTATE FOR SALE.

The whole of the PHIPSBURGH ESTATE, situated in Centre Clearfield, and Cambria Counties, in the State of Pennsylvania, with all the improvements thereon, is now offered for sale

THIS Estate comprises about SEVENTY THOUSAND ACRES of Land VERY HEAVILY TIMBERED, and in the HEART of the BITUMINOUS COAL FIELD, upon which are already established a FORGE for the manufacture of bar iron, with all the necessary appendages An efficient and well constructed SAW MILL a SCREW FACTORY, with improved machinery at which wood screws of all sizes are manufactured A ROLLING MILL for the rolling of blooms into round rods for wire drawing, with AIR FURNACE for heating the blooms An ANNEALING HOUSE A BUILDING with a FURNACE and MACHINE for heading rail road screws A PATTERN HOUSE containing numerous patterns for casting machinery A CUPOLA FURNACE, where the machinery of the screw factory is cast and an extensive country business carried on A BUILDING containing a TILT HAMMER and SHEARS for cutting iron A MANAGER'S HOUSE & OFFICE, and BOARDING HOUSE for workmen A valuable GRIST MILL worked by steam power

Also the PROPRIETOR'S HOUSE beautifully situated seventy six feet in front with spacious piazzas front and rear, and possessing every convenience calculated for a gentleman's residence A LARGE AND SUBSTANTIALLY BUILT BRICK HOTEL, in the town with all the requisite out buildings A WELL BUILT STONE HOUSE, forty two by twenty four feet with the land adjoining A LARGE STORE HOUSE calculated for an extensive country business FIVE COTTAGES in the village with gardens attached A FARM HOUSE with a spacious and well constructed Barn Granary and out buildings and one hundred and fifty acres of highly cultivated meadow land adjoining The whole estate is abundantly supplied with springs of excellent water and streams, with water power sufficient for saw mills, grist mills, forges furnaces &c It is situated on the Moshannon and Clearfield Creeks about ten miles from the river Susquehanna on the north to which the Moshannon and Clearfield Creeks afford navigable outlets in time of freshets and about twenty five miles from the PENNSYLVANIA CANAL on the southeast to which a highly favorable route is presented for the construction of a Rail Road to the JUNIATA DIVISION of the Pennsylvania Canal through a portion of Huntington County, abounding in IRON ORE of the finest quality, where a number of forges and furnaces have been long established but which are laboring under difficulties from the WANT OF THIS COAL A charter has been obtained for the construction of the rail road THE LOCATION OF WHICH IS COMPLETED, and the estimates furnished, preparatory to a commencement of the work The distance from the COAL MINES to the CANAL is only twenty eight miles

The MAGNIFICENT TIMBER upon this estate, consists of all the varieties usually found in Pennsylvania but the WHITE PINE which is MORE PARTICULARLY ABUNDANT, is of the largest description fit for MASTS, SPARS PANNEL BOARDS, &c and of an EXCELLENT QUALITY The BITUMINOUS COAL is found in every hill, in veins of various thickness, viz four feet two inches six feet and nine feet and there are two, three or four veins in a hill according to its elevation The quality varies, in different situations FROM THE HIGHLY BITUMINOUS SOFT COAL, CLOSELY RESEMBLING the NEWCASTLE COAL OF ENGLAND, to a much harder and heavier Coal containing less bitumen LIME STONE FIRE CLAY and IRON STONE have been discovered accompanying some of the measures and will doubtless be found to be general upon a proper examination A HIGHLY FAVORABLE CHARTER has been granted by the Legislature of Pennsylvania, containing MINING MANUFACTURING and TRANSPORTING PRIVILEGES for a period of SIXTY YEARS, authorizing a company to hold this estate in a corporate capacity, and to convey to market its vast resources

Family circumstances however having occurred to prevent the proprietor from individually accomplishing this important enterprise, he would be willing to sell ON LIBERAL TERMS the whole property to a respectable company who would carry out the provisions of the charter to whom of course he would transfer all its privileges or he would sell the estate in tracts, to suit the convenience of purchasers

The title to this Estate is INDISPUTABLE, and the SALUBRITY of the CLIMATE is proverbial Taking into consideration therefore, the immense quantity of the HEAVY and VALUABLE TIMBER upon this estate the presence of IRON ORE the INEXHAUSTIBLE supplies of BITUMINOUS COAL, so essential in the GENERATION OF STEAM the PRODUCTION of GAS and for domestic purposes and the arts in general its ADVANTAGEOUS POSITION with regard to its communication with the SEA BOARD its IMMEDIATE PROXIMITY to a region ABOUNDING in the RICHEST IRON ORE, in which the WANT of FUEL is already productive of serious inconvenience, considering also, the highly favorable location of the rail road intersecting the Pennsylvania canal, and thus affording the choice of both the Eastern and Western markets and taking into view the many HOUSES, BUILDINGS, MANUFACTURING ESTABLISHMENTS CLEARED and CULTIVATED LAND, thus enabling the enterprising company to commence their operations without incurring the HEAVY EXPENDITURE of money and the DELAY incident to new establishments it is confidently believed that a rare opportunity is now presented for the SAFE and PROFITABLE investment of capital.

For further particulars application may be made either personally or by letter POST PAID to Samuel Corp Esq New York John C. Montgomery Esq Philadelphia John Norris, Esq Brown's Mills Mifflin county, Penn or to
